SUMMARY

I am a computer engineer, I am open to innovation, learning, and I enjoy researching. I have a habit of being assiduous and rigorous while working, I love what I do.

SKILLS

- Java
- Python
- PHP
- JavaFx
- JQuery
- Javascript
- Socket.io
- Bash
- Graphql
- Mendix
- Objection
- CSS
- HTML
- Git
- Microsoft SQL Server
- ASP.Net
- Bootstrap
- Node.js
- MySQL
- Oracle VM VirtualBox
- Apollo
- Knex
- Typescript

PROJECTS

- JavaFX based card game
- Python and Java based program that uses google console search api, filters, and displays data via gui
- Differential equation solver.
- Bug tracking management system based on ASP.NET MVC 5 that uses DBMS, Bootstrap, JQuery – CRUD based.
- Ch@to full-stack as university license project
- Random gif generator

INTERNSHIPS

- SAN Tourism Software Group, software department
- DT Informatics Group, Digitalbrain Project R&D

EDUCATION

- Antalya Bilim University Computer Engineering 2017-
- İstanbul Technical University Mineral Processing. Engineering 2015-2017
- Gladewater High School 2013-2014
- Cengiz Aytmatov Social Sciences High School 2011-2013

Experience

- Backend Web Dev, DT Informatics Group, Jun 2020-Feb 2021
- R&D Engineer, DT Informatics Group, Feb 2021 - Present

23.03.2019

To whom it may concern

Re: Altug Ceylan

I have taught Altug during both semesters of 2018 at Antalya Bilim University (CS102 Introductory Java then CS201 OOP/Java).

During this time Altug has shown a sincere desire towards excellence and was one of the best students. I remember (despite the high course workload) he demonstrated novel insights in some CodeWars.com challenges. His team also impressed me in their programming project for CS201.

I warmly recommend Altug for software development work experience and am sure he will grow and add value to the team.

If you have any requests or questions please do not hesitate to contact me.

Kindest regards

Fazl Rahman

Lecturer
Computer Engineering Dept
Antalya Bilim University
